Met Office Aberdeen Meteorologist's View
Bitterly cold at height with a significant wind chill.

Forecast for Tuesday 19 Apr 2022
Weather: Mainly dry overnight and during the morning with bright, sunny or clear spells. However, lowering cloud and patchy rain and summit snow could push into Moidart and the Ben Nevis area. Cloud building more widely at times in the afternoon with the chance of the odd shower, any showers soon dying out with clear spells through the evening.

Maximum wind: Southwest 10 to 15mph.

Chance of cloud-free hill tops above 800m: 80%, but 40% around Ben Nevis and the north.

Low Cloud and visibility: Visibility mainly very good with no significant cloud, but patches possible around the summits in showers, visibility falling moderate or poor. More extensive cloud in the north, base 600 to 900m at times.

Temperature: **Glens:** Plus 3 Celsius rising to 13 Celsius in the afternoon
At 800m: Around Zero Celsius, rising to plus 6 in the afternoon
Freezing level: Around 600m at dawn, soon rising above the summits.
